Date: June 10, 2009

To: McDowell Patients

From: Maricopa Integrated Health System (MIHS)
McDowell Healthcare Center (McDowell Clinic)

Recently you may have received a letter from the State of Arizona (Arizona Department of Health Services) about changes to the drug assistance program called ADAP. The ADAP program is reducing the number of free medications. This change is effective **July 1, 2009**.

You are currently enrolled in both ADAP and Medicare Part D. This change may or may not affect the cost of medications you currently get from ADAP. Attachment A is a list of ADAP medications you have received. This list tells you what medications are free and what medications you may have to buy after June 30th.

If this change means that you have to buy some medications, MIHS has a plan that may help you. Because you are a patient the McDowell Clinic, you may qualify for our CopaCare Plan. CopaCare is a plan that offers lower priced medications based on your current income. This plan allows you to get some medications at MIHS pharmacies for less money.

To talk about how CopaCare and Medicare Part D and ADAP will work together, please call Eric Moore at 602-344-2632.
